

Details from Supreme on Safe Environment were not available before 7/7 so the key elements were not available in advance. According to Supreme, 17 Councils are in compliance across the 6 reportable positions (GK, Program Director, Community Director, Faith Director, Life Director). Understand that Supreme reports are not accurate, but they are what we are evaluated upon. An approximate 25% COMPLETION rate so early in the year is good. That 17 Councils could get the MANDATORY report/testing completed should be stimulus for ALL other Councils to complete the process.

Remember participation is required-no excuses.
