

Family Director Report

Brothers,

It has been an active and encouraging period for our Family programs.

We had an eventful Family Camporee over Labor Day weekend, bringing families together for fellowship, activities, and an opportunity to strengthen the bonds between our Knights and their families. Events like this are an important part of our mission because they help build strong Catholic families and stronger councils.

Our Family Rosary, held on the second Friday of every month, continues to go well. Attendance and participation are growing, and it is encouraging to see more families coming together in prayer. I hope we can continue building on this momentum and encourage even more councils and families to participate in family-centered prayer.

I am also pleased that councils are reporting their family activities and events to me. This communication is important because it allows us to recognize the good work being done throughout our councils, share successful ideas, and better understand where additional support may be needed.

Going forward, I encourage every council to continue planning meaningful family programs, promoting family prayer, and reporting their activities. Our goal should be not simply to hold events, but to strengthen the Domestic Church and help Catholic families grow together in faith.

Thank you to all of the councils, officers, Family Directors, and Knights who are putting their time and effort into making these programs successful.

Vivat Jesus!

Tyler Hanscom

Family Director

Knights of Columbus
